

```
@NgModule({  
  declarations: [AppComponent],  
  imports: [  
    BrowserModule.withServerTransition({ appId: 'serverApp' }),  
    PrebootModule.withConfig({ appRoot: 'app-root' })  
  ],  
  bootstrap: [AppComponent]  
})  
  
export class AppModule {}
```

Preboot

Da server a client

```
@NgModule({  
  declarations: [AppComponent],  
  imports: [  
    BrowserModule.withServerTransition({ appId: 'serverApp' }),  
    PrebootModule.withConfig({ appRoot: 'app-root' })  
  ],  
  bootstrap: [AppComponent]  
})  
export class AppModule {}
```
