

```
@Directive({
  selector: '[A]',
})
export class ADirective {
  constructor(@Host() s: MyService) {} ← Ok!
```

```
@Component({
  selector: 'outer',
  template: `
    <div>
      <p A> ... </p>
    </div>
  `,
  viewProviders: [ MyService ]
})
export class OuterComponent {}
```

viewProviders
